Last Monday was Labor Day—at least we labored all day to try to get out a good paper for this week.

This office is indebted to Farm Statistician L. H. Wible for a cloth copy of the game laws and August reports of Crops and Live stock.

Did you ever try mixing red top with your timothy? Those who have followed Alva Agee's teachings have, doubtless, noticed that he invariably recommends about two pounds of red top along with every pound of timothy seed when the crop is wanted for hay. Also, that he nearly always sows some alsike along with the red clover.

Mr. W. T. Leshar, of Philadelphia, is taking a month's recreation among the Kendall families and others, in the Cove. Mr. Leshar devotes some time to the study of genealogy and historical subjects and may write something interesting for the NEWS readers concerning the history of the Old Packers' Path that followed the general course of what is now the Lincoln Highway.

**WHY YOU ARE NERVOUS**

The nervous system is the alarm system of the human body. In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamlike sleep, irritability and unless corrected, leads straight to a breakdown. To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutrient gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

**Too Much Gold.**

It sounds odd; but it is true, nevertheless, that Europe has sent so much gold to the United States to pay for war material that financiers see trouble ahead for us if some other means of paying for the goods cannot be devised. Merchants in America, and merchants in Europe, have been accustomed to settle with each other by striking a balance through the medium of exchange bankers. This country is shipping so much merchandise to Europe that the balance is nearly all on our side, and we may have to begin buying back American securities that formerly brought capital to this country.

**L. W. FUNK**

High Grade Plain Pianos, Player Pianos, Organs, Victrolas, Records, and Professional Turner, McConnellsburg,

Nothing adds more to the refinements of home than good music. To have good music you must have a good instrument. There are good bad and indifferent instruments, and to the unskilled eye they look much alike. The unprincipled dealer is likely to make you pay a first-class price for a fourth-class instrument. I have lived in this county since my birth, I am a taxpayer and in a position to make good any business transactions. Buy your piano, organ, or victrola from me and if it is not all right you can come back at me.

There are families in every part of this county that have purchased instruments from me. Ask them about me.

Perhaps you want to trade your organ for a Piano, or Player Piano; or your Plain Piano, for a Player. See me. Let's talk it over.
